Your task today is to create three power-point slides for the mental health app you are designing for Prosser High School Students.

Slide #1 should show your name, the name of your app, and a brief summary of what the app is designed to do.

Slide #2 should show the icon/logo of your app. Below are some examples of famous icons.

![Instagram Icon](image1.png) ![Snapchat Icon](image2.png) ![Facebook Icon](image3.png)

Slide #3 should show the opening screen of your app. The opening screen is what will be displayed when the user opens the app. Please identify each element on the screen.
